SKILLS

Systems Engineering Linux/Unix, network infrastructure, OS configuration, hardware repair
Software Engineering Full-stack development, RESTful API design, N-tier architecture, OOP
QA & Tools Test planning, defect tracking, qTest, Jira, Git, CI/CD, Docker, Agile / Scrum

EXPERIENCE

Auburn University Office of Information Technology Oct 2022 – Dec 2024
Software Quality Assurance Analyst

- Executed software testing protocols to verify compliance with functional requirements
- Tracked and triaged reported software defects using Jira and qTest across dev cycles
- Coordinated resolution workflows with development teams to close out identified defects
- Worked with cross-functional teams to identify, document, and resolve software issues
- Documented testing outcomes and defect details to support dev team decisions

CGI Jun 2024 – Jul 2024
Software Developer Intern

- Built a full-stack Manager Dashboard using .NET 8 MVC for promotion and PTO tracking
- Applied N-tier C# architecture to separate business logic, data access, and UI layers
- Designed and implemented RESTful APIs with Entity Framework for data management
- Gathered stakeholder requirements and translated them into technical specifications
- Queried and managed data using SQL alongside Entity Framework integrations

General Dynamics Mission Systems May 2023 – Aug 2023
Computer Systems Engineering Intern

- Optimized mission-critical server performance on Littoral Combat Ships through testing
- Diagnosed and repaired hardware including MFDs and UPS using military procedures
- Validated network infrastructure through OS configuration and NTP synchronization
- Configured and installed software for network UPS, EMU, and PDU units aboard ship
- Automated SSL certificate generation for network cabinet units, resolving known issues

EDUCATION

Georgia Institute of Technology Aug 2026 – Aug 2028
Master of Science in Computer Science
Specialization in Computing Systems

Auburn University Aug 2021 – May 2025
Bachelor of Science in Computer Science
Undergraduate Certificate in AI Engineering
GPA: 3.73/4.00 | Magna Cum Laude | Honors College

Relevant Coursework Introduction to Operating Systems, Computer Organization & Assembly Language Programming, Introduction to Computer Networks, Design and Analysis of Computer Networks, Digital Logic Circuits, Software Construction, Software Modeling and Design, Introduction to Algorithms, Discrete Structures, Database Systems I, Machine Learning
